

PARAMOUNT

F L O O R I N G

As required under the new provisions of the Lacey Act we will be declaring each species' scientific name with country of origin at the time of import. This fulfills the reporting requirements under the Lacey Act and makes us compliant. All products sold by Paramount Flooring have been reviewed for legality and have passed our internal verification process.

In addition to the declaration at the time of import, we have signed policy agreements with our suppliers which state that we prohibit any illegally sourced plant product be used in our flooring and also request state and local documents as proof of this legal sourcing. What's more, we periodically perform random document audits from each supplier for these documents from the ruling forestry department of the country of origin.

By taking these steps we are performing the required due diligence making sure the foreign laws are not violated and that our flooring comes from legal sources and thus Lacey Act compliant. Thank you for your concern.
