## **How do I submit a claim?**

- If the purchaser believes there is damage to the flooring covered by this limited warranty, the purchaser should immediately contact his/her authorized dealer. In most cases, your local dealer can provide you with a solution to resolve the situation.
- Upon receipt of a claim, Paramount Flooring reserves the right to inspect the TimbrCORE™ Flooring at the installation location and to verify the eligibility of the warranty claim with respect to the cause, and with respect to the extent of the claim.

## Simply Clean!

Most dirt can be avoided by having an appropriate walk off mat or rug in entrance areas. For the rest of the floor, it is recommended to use the brush attachment on your vacuum cleaner. Depending on the frequency of use and amount of dirt, you should also wipe the floor with a damp cloth or micro fiber mop regularly. Bevels should also be cleaned in the same direction as the bevel. For optimum cleaning we recommend a product-specific flooring cleaner.

## Stubborn Stains?

For common spills such as coffee, tea and basic foods lukewarm water with vinegar-based household cleaner should be sufficient. Paint, lipstick, ink, tar, etc. can be easily removed using an absorbent cloth and a basic cleaning solvent such as acetone or stain remover. Neutralize the affected area with a damp cloth after using solvents.

## Optimal Protection for TimbrCORE Flooring:

- Entrance areas must have a properly sized walk off mat / rug.
- In commercial applications where the TimbrCORE™ Flooring area leads directly outside, an appropriately sized clean-off zone must be built into the floor structure.
- Attach felt pads to the feet of furniture, including chairs and tables. Clean these regularly, check for proper functionality, and replace when worn out.
- Lift furniture when moving, rather than pushing or dragging across the floor. If sliding is necessary, use a blanket or towel under the furniture feet to protect the flooring surface.
- Built-in kitchens and built-in cupboards should not be affixed directly to TimbrCORE™ Flooring. TimbrCORE™ Flooring is intended to be installed as a floating floor, and therefore the flooring must have the ability to expand and contract. Movements of the floor should not be blocked or limited by the placement of overly heavy objects. If any bulges in the flooring are observed after placing furniture, appliances or other heavy objects on the flooring, then it is recommended that the heavy object be moved to a different location.
- Use soft furniture casters in the case of office chairs and all other objects on casters. Clean office chair and furniture casters regularly, check for proper functionality, and replace when worn out. Floor/chair mats should be used in the absence of approved casters.
- Beater bars should be disabled or removed.
- Never use abrasives, steel wool or scouring agents on TimbrCORE™ Flooring.
- Immediately remove all liquid spills, and avoid prolonged exposure to humidity or other moisture.
- Do not use steam cleaners, except on TimbrCORE™ with Aqua Advantage™ Flooring.
- Do not use scrubbers, polishing machines, pressure washer or similar products.
- Clean the floor with a damp mop. Do not use a saturated mop / cloth. Do not pour liquids of any sort directly on TimbrCORE™ Flooring.
- Do not flood the floor with water or other liquids.
- Do not use cleaning products that may leave a residue. We recommend a product-specific flooring cleaner.
- Do not apply wax or polish to TimbrCORE™ Flooring. The use of wax or polish may void the warranty.
- Do not apply sealant to TimbrCORE™ Flooring after installation. The use of sealant by the consumer or installer may void the warranty.

Non-compliance with these cleaning and care instructions shall void all warranties.

## Still Damaged?

No matter how durable your TimbrCORE™ floor is, a panel may still get damaged. If the damage is slight, the problem can usually be solved with a product-specific repair. More severely damaged panels should be repaired or replaced by a professional floor fitter.
